J12 Gilbert, Samuel, d. 1692

The florists vade-mecum. Being a choice compendium of whatever worthy notice hath been extant for the propagation, raising, planting, encreasing and preserving the rarest flowers and plants that our climate and skill (in mixing, making and meliorating apted soils to each species,) will persuade to live with us. With several new experiments for raising new varieties, and for their most advantageous management. In a more particular method than ever yet publish'd: together with the gardeners al-
